Purpose

Work Integrated Learning placement opportunities are an important component of employee engagement and skills development in a variety of Vocational Education Training (VET), Vocational Certificate of Applied Learning (VCAL) and Higher Education (HE) learning and teaching environments. This Work Integrated Learning Placement (WILP) policy and its associated documents are necessary to comply with the requirements of the Tertiary Education Quality Standards Agency (TEQSA), external accreditation agencies and to clearly define University's (FedUni) overarching approach in the delivery and monitoring of programs that offer WILP.

Scope

This policy relates to domestic and international students in VET, VCAL or Higher Education programs undertaking WILP requirements as part of their study program. WILP requirements include, clinical placement, professional experience and industry placement undertaken as a requirement of a program and/or course of study. The intent of this policy is to provide students with a positive and effective learning experience which will benefit all parties involved and assist students in their preparation for future employment.

This policy does not apply to:

• A Vocational Education and Training in Schools (VETiS) program delivered as part of a third party agreement with a Secondary School which undertake the training and assessment;
• The University training its own staff;
• Apprentices and trainees employed under a training agreement; and
• Commercial/industry training program agreements between the University and commercial enterprise.
• Volunteering

**Policy Statement**

This policy sets out clear requirements for the three stakeholders involved with the WIL arrangements. It ensures that the roles and responsibilities of the student, Placement Provider supervisor, and the FedUni staff are clearly defined and transparently applied to all WIL opportunities. The purpose of this policy is to ensure that University students are given the best possible WIL experience relevant to their chosen program.
