Purpose

This procedure describes the processes required to extend, amend and review VET accredited and non-accredited qualifications and units approved by the University for delivery. The University has a Scope of Registration which details the VET qualifications the University is authorised to deliver in Victoria, interstate and overseas as approved by ASQA and the VRQA.

Scope

This procedure describes the process for obtaining approval for delivery of all VET Programs.

It details the selection and/or development processes for each of the following program types:

- Section 1: Training Package Qualifications / Nationally Accredited Programs - Scope of Registration
- Section 2: Federation University VET Training Program (consisting of Unit of Competency / Nationally Recognised Modules)
- Section 3: Adding Units / Modules
- Section 4: Non-Award and Vendor Accredited Programs
- Section 5: Skill Sets
- Section 6: Schedule 5.1 / 5.1.1

All programs for which the University will issue an award must be developed and approved in accordance with appropriate external or internal policies and procedures.

Definitions

Term	Definition
Accredited Training	A structured sequence of vocational education and training that has been approved by a National VET Regulator (NVR) and leads to an Australian Qualifications Framework AQF qualification or Statement of Attainment. In

	this procedure the word qualification will be used for an accredited program.
AQF	Australian Qualifications Framework. A nationally consistent set of qualifications for all post-compulsory education and training in Australia.
ASQA	The Australian Skills Quality Authority. The national regulator for Australia's vocational education and training sector. ASQA regulates qualifications and training providers to ensure nationally approved quality standards are met.
Commencing Enrolment	A student is considered to have a commencing enrolment if they are enrolled in a qualification or unit for the first time with the University.
Continuous Enrolment	A student is considered to have a continuing enrolment in a qualification or unit if the qualification or unit was commenced in a previous year and has not yet been completed.
Course Approval Committee (CAC)	The principal functions of the TAFE Course Approval Committee are— (a) to assess the financial viability of the University's Scope of Registration; Federation University Australia (Operations) Regulations 2022 Part 4 — Intellectual Property 6 (b) to confirm that there is capability, capacity and resources to deliver a proposed course; (c) to recommend to the Curriculum Committee any additions to or removals from the Scope of Registration.
CRICOS	Commonwealth Register of Institutions and Courses for Overseas Students.
Curriculum Committee	The Curriculum Committee is a standing committee of the Academic Board of Federation University Australia. It is responsible for reviewing and recommending the approval of proposed new programs and of all University and TAFE qualifications leading to a formal award under the AQF to the Academic Board.
ESOS	Education Services for Overseas (ESOS) the minimum standards that Australian Educational Institutes must adhere to when delivering education to international students.
Non-Award Programs	Non-award studies include programs for professional development, education development, general interest and preparation for study offered by the University. Non-award studies cater for a range of educational requirements outside of the University's award programs (as listed on Schedule 5.1)
NVR Standards	Standards for National VET Regulator Registered Training Organisations. The objectives of the NVR Standards are to ensure nationally consistent, high-quality training and assessment services within Australia's VET system. Continual compliance with the Standards is a condition for all NVR registered training organisations and for applicants seeking registration under the Act.
Qualification	Accredited programs and National Training Package qualifications are referred to as 'qualification' throughout this procedure.

RTO	Registered Training Organisation. A training organisation listed on the National Register, or by the relevant state-based authority, as a registered training organisation. Federation University's RTO number is 4909.
Scope	The Scope of Registration details the nationally recognised training an RTO is approved to provide. Federation University's Scope can be viewed on the https://www.training.gov.au website. In this procedure the University's Scope of Registration will be referred to as "the Scope".
Skill Sets	Single units or combinations of units which link to a licence or regulatory requirement, or defined industry need.
Statement of Attainment	A Statement of Attainment is issued by a Registered Training Organisation when an individual has completed one or more units of competency from nationally recognised qualification(s)/course(s).
Statute 5.1 The Schedule	The Schedule, Statute 5.1, lists all current sealed awards which can be awarded by the University. The Schedule is maintained by the Manager, Registrar Services and includes all qualifications listed on the Scope.
SVTS	Skills Victoria Training System
Training Package Qualification	A nationally endorsed, integrated set of competency standards, assessment requirements, Australian Qualifications Framework qualifications, and credit arrangements for a specific industry, industry sector or enterprise. In this procedure the word qualification will be used to refer to a training package qualification.
University Governance and Management Committees	Relevant committees that support the academic, operational and quality governance of the University's Vocational Education and Training and Higher Education programs.
Unit of Competency	A unit of competency is the smallest component of achievement which can be nationally recognised. In this procedure the word unit will be used to refer to units of competency from qualifications.
Vendor Accredited Programs	Vendor Accredited Programs are programs that are developed, accredited and maintained by a vendor and delivered by the University through a formal arrangement.
VET Accredited Course	An accredited VET (Vocational Education and Training) course is: <ul style="list-style-type: none"> • a structured sequence of training developed to meet training needs that are not addressed by existing training packages • a course accredited by the national VET regulator or by a delegated body of the national VET regulator, and • a course that has been assessed by ASQA as compliant with the <i>Standards for VET Accredited Courses 2012</i> and the Australian Qualifications Framework (AQF).
VET Funding Contract	VET Funding Contract is the means through which RTOs are contracted to deliver training services to eligible individuals that may be subsidised by the Department of Education and Training through the VET Funding Contract.

Options

Option One: Training Package Qualifications and Nationally Accredited Qualifications

Wherever Training Package qualifications / nationally accredited qualifications have already been developed (available at <https://www.training.gov.au>) these must be delivered where they meet the training needs of any specified group. Contextualisation or customisation allowed within the packaging rules of a Training Package or accredited curriculum should always be the first option considered in targeting any additional training needs to a specific group. These two options can be considered without pursuing internal program approval.

In order to deliver a nationally accredited qualification or Training Package qualification, the qualification must be listed on the University's Scope of Registration. This procedure details the processes required to modify the Scope of Registration.

Where contextualisation or customisation within the packaging rules of a Training Package are deemed insufficient for the training needs of a specific group, the below options are available.

Refer to Section One of this procedure for further information.

Option Two: FedUni VET Training Qualifications (consisting of units of competency / national recognised modules)

Programs or courses of study designed to meet the specific training needs of an industry or enterprise which do not meet full vocational outcomes (AQF qualifications), but which are comprised solely of nationally endorsed units of competency or nationally recognised modules.

Refer to Section Two of this procedure for further information.

Option Three: Adding Units and Modules

Endorsed units of competency and / or accredited modules can be added to the delivery of qualifications without seeking external accreditation / approval provided the units are on the Scope of Registration.

Refer to Section Three of this procedure for further information.

Option Four: Non-Award and / or Vendor Accredited Programs

This option is applicable where specific clients may require a training program that does not lead to a full vocational outcome (AQF qualification) and where national or state accreditation is not required. Where this training need cannot be met through the delivery of available nationally accredited units / modules, a program can be internally developed and accredited by the Academic Board.

Similarly the University may have an arrangement with a vendor to deliver programs that are developed, accredited and maintained by the vendor. An example of an arrangement to provide a program that has been designed and maintained by a vendor is the Licenced Electricians Assessment Training.

Refer to Section Four of this procedure for further information.

Option Five: Skill Set Training

Nationally Endorsed Skill Sets

The Standards for Registered Training Organisations 2015 defines skill sets as *single units or combinations of units of competency from a training package which link to a licensing or regulatory requirement, or defined industry need*. They are not qualifications, but are a way of publicly identifying on a Statement of Attainment, groupings of units of competency which meet an identified need or industry outcome.

Nationally Endorsed Skill Sets are recognised throughout Australia and are listed within each Training Package. These Skill Sets are eligible for government funding.

Locally Approved Skill Sets

Locally Approved Skill Sets are developed for either of the following reasons:

1. To meet a clearly defined local industry requirement
2. To have a specific statement included on a Statement of Attainment identifying the units as meeting the requirements for a particular purpose

Locally Approved Skill Sets are not eligible for government funding which means that students would be enrolled as full fee paying. These Skill Sets are not recognised as Skill Sets outside of the University.

Refer to Section Five of this procedure for further information.

Section One: Training Packages / Nationally Accredited Qualifications

The University's Scope of Registration details the VET qualifications the University is authorised to deliver in Victoria, interstate and overseas as approved by ASQA.

The general compliance requirements for the Scope of Registration include:

- Federation TAFE must ensure qualifications are registered on the Scope of Registration prior to commencing marketing (refer to Course Finder Information Document), enrolment or delivery activities. It is an offence to undertake these activities for any qualifications not registered on the Scope.
- The University must not issue sealed awards or statements of attainment for qualifications not listed on Schedule 5.1 or 5.1.1. It is an offence to do so and can result in the University being fined.
- Federation TAFE must be able to demonstrate that they have the capacity to deliver and assess ALL of the qualifications on the Scope of Registration and meet the requirements of the Standards for Registered Training Organisations 2015 and the VET Funding Contract, including the Quality Charter, at all times.

As ASQA may undertake an audit of the University at any time, and has indicated that planned audits may occur upon receipt of applications to extend the Scope of Registration, all TAFE Program Areas must ensure that records and evidence of compliance with University policy and procedure are met at all times.

In accordance with the VET Funding Contract, HESG can audit the University at any time throughout the year to ensure compliance with the current Funding Contract.

The University may also conduct audits of TAFE Program Areas to confirm they have the capacity to deliver and assess qualifications on the Scope of Registration. It is the Program Areas responsibility to ensure that all the evidence requirements are met.

After the 12 month transition period, ASQA automatically removes superseded qualifications from the Scope of Registration unless ASQA advise of an approved teach out extension.

B: Adding a New Unit of Competency to Scope

A single unit of competency **can** be added to the Scope when a Statement of Attainment would be issued after the successful completion of the unit.

A single unit **does not have** to be added to the Scope if it is:

- included in a qualification that is already on the scope. By default the University is approved to deliver all units in all qualifications on its Scope.
- to be 'imported' from another Training package and it satisfies the packaging rules for importation of units.

	ACTIVITY	RESPONSIBILITY	STEPS
A.	Identify unit.	Head of Centre or Program Manager Director	<ol style="list-style-type: none"> 1. It may be possible to use an existing unit from another qualification. 2. Check packaging rules, and if they allow for the unit to be "imported" it does not need to be added to the Scope.

C: Transition Arrangements for Equivalent Superseded Qualifications

This section applies when an existing qualification on Scope has been superseded by a new qualification which is deemed equivalent to the existing qualification.

If the training package information indicates that a new qualification is non-equivalent to the superseded version, then the Department will need to follow the steps as set out in this procedure under Section D: *Transition Arrangements for Non – Equivalent Superseded Qualifications*.

Information on how to enrol continuing students in a superseded qualification refer to the [VET Enrolment Procedure](#).

ASQA will automatically add new equivalent qualifications to the University's Scope of Registration. New qualifications will not be available for enrolments until approval from the Curriculum Committee is received and the qualification has been added to the Student Management System.

The transition period for superseded / expired qualifications must not exceed 12 months without formal written ASQA approval.

I: Victorian Certificate of Education (VCE) Vocational Major

The University also has a State Register which is administered by the Victorian Registration & Qualifications Authority VRQA. This State Register provides details of units / qualifications that are authorised by the VRQA for delivery only in Victoria and the campuses that these units / qualifications are registered at.

Currently the only qualifications listed on the VRQA State Register are for VCE-VM as these are state based issued qualifications.

The State Register can be amended similarly to the National Scope of Registration through ASQA. Qualifications can be added or removed by lodging a request with the regulatory body.

All amendments to the State Register need to be submitted using *Form B: Amending the Scope of Registration*, these amendments include:

- To add new scope items or non-equivalent training package products or accredited course to scope.

2. To add equivalent training package products without a standing application to scope.
3. To remove items from scope.

Victorian Certificate of Education (VCE) Vocational Major qualifications are not issued by the University and are not added to Schedule 5.1

J: Exceptions to the ASQA Delegate Status

The University has been granted delegate status from ASQA, which allows self-approval of amendments to its Scope of Registration. ASQA must be notified of any additions or deletions using the Delegate Report Authorisation Form.

There are exceptions to the authority the University has in its delegate status which means that there are qualifications that require approval by ASQA prior to being added to its Scope of Registration.

Due to the inherent risk involved with particular qualifications ASQA has removed the delegate status from these qualifications and additional application conditions have been included.

If applying for any qualifications that are not included in the University's ASQA Delegate authority, Federation TAFE staff should contact Quality Assurance Services to ascertain whether there are any additional application conditions imposed by ASQA prior to submitting any application for addition to Scope. These applications to Scope should be treated as if they are new and non-equivalent, irrespective of whether they are replacing an existing qualification or not.

K: Changes to Existing Training and Assessment Strategies

A Training and Assessment Strategy (TAS) must be developed for every qualification that is listed on the University's Scope of Registration; this includes any units or skill sets that have been registered with ASQA independently to a qualification. A separate TAS is also required for each student cohort.

If at any time following approval of a qualification’s documentation any of the below are amended or modified **the TAS must be updated to reflect these alterations:**

- the identified cohort or an additional cohort
- the units of competency to be undertaken
- mode of delivery
- the structure of how the qualification will be facilitated
- the assessments to be undertaken to achieve competency (other than assessment content)
- the materials and resources to be used; e.g. Introduction of new equipment requiring purchase or change / update to facilities

The TAS Part A and B must be updated to reflect the modifications to training, assessment and delivery. If the teaching staff have changed from the original submission, the Trainer Skills Matrix should also be updated to include staffing changes.

	ACTIVITY	RESPONSIBILITY	STEPS
A.	Identify the Training and Assessment Strategy that requires reviewing and modifying.	Curriculum Quality Leader / Program Manager	1. Modifications may include: <ul style="list-style-type: none"> • the identified cohort or an additional cohort • the units of competency to be undertaken • mode of delivery • the structure of how the qualification will be facilitated • the assessments to be undertaken to achieve competency (other than assessment content) • the materials and resources to be used; e.g. Introduction of new equipment requiring purchase or change / update to facilities
B.	Relevant amendments to the TAS to be incorporated.	Curriculum Quality Leader / Program Manager	1. If the amendments affect the delivery of the qualification / units then the TAS – Part B should also be revised. 2. If the teaching staff have changed due to any amendments to the training, assessment or delivery then the Trainer Skills Matrix should be updated to include staffing changes.
C.	Amended documentation to be submitted to Course Approval Committee for approval.	Curriculum Quality Leader / Program Manager	1. A summary of changes to the qualification to be provided with an updated copy of TAS.

D.	Approved documentation to be loaded into the University's approved records management system.	TAFE Compliance	1. Registrar Services to be provided with an updated copy of TAS and summary of changes to the qualification.
E.	Update Student Management System	Registrar Services	1. Refer to qualification documentation in the University's approved records management system, upload program and unit data into Student Management System

L: VET Loans Scheme

VET Student Loans are income contingent loans designed to provide financial support to students to undertake quality training for skills that are aligned to workplace needs.

The Commonwealth government currently determines which qualifications are eligible for the Student Loan Scheme and these approved qualifications appear on the VET Student Loans eligible courses list.

It is possible that a student may enrol in a qualification that does not appear on the VET Student Loans eligible courses list and may wish to apply for a VET Student Loan. In this case the University would need to submit an application to have a particular qualification added to the eligible courses list.

Any queries regarding program approval for the VET Student Loan Scheme should be referred to the Manager, Registrar Services.

Section Two: University VET Training Programs (consisting of Units of Competency / Nationally Recognised modules) / Short Courses

These programs of study designed to meet the specific training needs of an industry or enterprise which do not meet full vocational outcomes (AQF qualification), and are comprised solely of nationally endorsed units of competency or nationally recognised modules. Such arrangements must be approved by Federation Course Approval Committee and the Curriculum Committee using the 'Federation University VET Programs Registration Form'.

Relevant units must fit within the packaging rules for qualifications that appear on the University's Scope of Registration. Any pre-requisites still must be met as part of any short course consisting of nationally recognised modules / units.

Where this option is adopted the group of units / modules should be marketed as a 'Training Program' e.g. 'Training Program in Header Operations'. These programs should be reviewed on a regular basis to ensure currency.

A student who successfully completes this training option will receive a Statement of Attainment for the nationally endorsed units of competency or nationally recognised modules. The designated title for the Training Program may also be included on the Statement of Attainment.

Refer: Federation University VET Training Program Registration Form.

Section Three: Adding Units / Modules

Endorsed units of competency and / or accredited modules can be added to the delivery of courses or Training Package qualifications without seeking accreditation / approval either at the state or local level provided the units are on the University's Scope of Registration. It may be possible to use an existing unit from another qualification; packaging rules should be confirmed to see if they allow a unit to be 'imported'. If this is the case the unit does not need to be added to the Scope of Registration.

These additions are **not** a requirement of the qualification and are optional for student enrolment. Approval for this option must be sought from the Director, Skills and Education Delivery, Federation TAFE as there may be funding implications. A Statement of Attainment will be issued for any additional endorsed units of competency and / or accredited modules completed.

Refer to Section One, B: Adding a new Unit of Competency.

Section Four: Non-Award and / or Vendor Accredited Programs

Specific clients may require a training program that does not lead to a full vocational outcome (AQF qualification) and where national or state accreditation is not required. Where this training need cannot be met through the delivery of available nationally accredited units / modules, a program can be internally developed and accredited by the Academic Board.

Similarly, the University may have an arrangement with a vendor to deliver programs that are developed, accredited and maintained by the vendor. An example of an arrangement to provide a program that has been designed and maintained by a vendor is the Licenced Electricians Assessment Training.

These programs do not lead to an AQF qualification.

	ACTIVITY	RESPONSIBILITY	STEPS
A.	Consult with enterprise to discuss training needs and develop required program.	Director, Skills and Education Delivery / Program Manager	1. Determine whether program will be a Vendor Accredited or Non-Award Program.

Section Five: Skill Set Training

Nationally Endorsed Skill Sets

Nationally endorsed skill sets are identified in a training package or accredited program.

Training packages include nationally endorsed skills sets which compliment full AQF qualifications. These skill sets can be developed from one or more training packages and are supported by industry before they are nationally endorsed by the Industry and Skills Council.

If the Training Package containing the required Skills Set is not on Scope, refer to Section One, A. Adding a new qualification.

	ACTIVITY	RESPONSIBILITY	STEPS
A.	Identify if there is a suitable nationally endorsed skill set.	Director, Skills and Education Delivery / Program Manager	1. Refer to relevant training package
B.	Ensure skill set units are within qualifications on the University's Scope of Registration.	Director, Skills and Education Delivery / Program Manager	1. Refer: www.training.gov.au , the University's RTO number is 4909.
C.	Complete Nationally Endorsed Skill Set Registration Form. Completed form to be forwarded to Federation Course Approval Committee for approval.	Director, Skills and Education Delivery / Program Manager	1. Wording for Statement of Attainment identified on <i>Registration Form</i> cannot be changed after registration. Any amendments require re-registration.
D.	Submit the completed application documentation to Quality Assurance Services for review prior to submission to the Course Approval Committee for approval.	Federation Course Approval Committee Executive Officer / Quality Assurance Services	<ol style="list-style-type: none"> 1. Quality Assurance Services will review the application documentation to ensure that it meets all necessary regulatory requirements prior to it being presented to the Curriculum Committee. 2. If documentation is compliant, Quality Assurance Services will notify Federation TAFE Compliance, Curriculum Quality Leader and Program Manager and provide a memo for the Curriculum Committee. 3. If documentation is non-compliant, Quality Assurance Services will notify Federation TAFE Compliance, Curriculum Quality Leader and Program Manager and provide a memo outlining the issues that require rectification prior to the documentation being resubmitted for consideration. 4. Any non-compliant application documentation must be resubmitted with rectifications to Quality Assurance Services. 5. Prior to submitting to Curriculum Committee,

			documentation must be compliant and any recommendations from Quality Assurance Services incorporated.
E.	Forward approved form and meeting minutes to Executive Officer – Curriculum Committee.	Executive Officer, Curriculum Committee Academic Secretariat Mailbox	1. Documentation to be added to the Curriculum Committee agenda for consideration.
F.	The Curriculum Committee to approve the skill set.	Curriculum Committee / Registrar Services	1. The skill set to be registered by Registrar Services.
