Permit Zones

The following are considered permit zones:

- Permit Zone 1
- Permit Zone 4
- Permit Zone 7
- Disabled Persons Only

Parking on areas not defined as a carpark e.g. grassed areas or nature strips is not permitted. Drivers who park in areas where parking is not permitted will be issued with an infringement notice.

Permits are required for parking in Permit Zones

Restrictions and penalties apply to permit zones during the designated times and days.

The type of permit zone and the hours applicable are clearly identified with signage indicating the days and times that restrictions apply.

Parking is not permitted in parking areas that are designated as a permit zone during the defined hours unless the vehicle has been registered on the CellOPark App, VPermit account or has been issued with a valid VPermit.

Number plate recognition is being used on University property to control parking in permit zones. Drivers who park in permit zones whilst restrictions are enforced must obtain a permit. Non permit holders will be issued with an infringement notice

These conditions apply for both for short term parking and permit holders in restricted parking zones.

Vehicles can only park in the relevant permit zone once registered through the CellOPark App or the VPermit account.

Permits are only valid on vehicle number plates registered within the CellOPark App or VPermit account.

Vehicles parking in a permit area who do not have a valid permit may incur a parking infringement notice and payment will be pursued by the University.

There are only a limited number of permits available.
