Purpose

This procedure has been developed to articulate the University’s practices that apply to enrolled International Students in compliance with Standard 6 – Student Support Services of The National Code of Practice for Providers of Education and Training to Overseas Students 2018.

Standard 6 requires registered providers to have a documented critical incident procedure that specifies action to be taken in the event of a critical incident, required follow-up to the incident, and records of the incident and action taken.

The procedure recognises that in most cases international students do not have close family available to care and provide support to them in Australia. It is imperative that the University responds in a practised and timely way with any critical incident involving an international student so that:

- Timely and regular information is relayed to families abroad in accordance with information privacy principles
- Ongoing support is provided to a student in need, and

- Comprehensive records are maintained.

Scope

This procedure applies to all critical incidents, as articulated below, that involve International Students enrolled at Federation University, which may include those studying online or offshore.

Legislative context

- [The Tertiary Education Quality and Standards Agency Act 2011 \(TEQSA Act\)](#)
- [The Education Services for Overseas Students \(ESOS\) Act, 2000](#)
- [The National Code of Practice for Providers of Education and Training to Overseas Students 2018](#)
- [Privacy & Data Protection Act 2014](#)
