Purpose

The National Code of Practice for Providers of Education and Training to Overseas Students (ESOS) 2018 Standard 9 covers the circumstances for students, where compassionate or compelling circumstances exist, to defer commencement of studies, take a leave from studies or temporarily suspend their studies during their course. This must be completed through a formal agreement with their registered provider. Students must be advised that deferring, taking leave from studies or temporarily suspending their studies during their course may affect their student visa.

The registered provider may also seek to cancel or suspend the student's enrolment for disciplinary reasons.

This procedure outlines the circumstances for the application, assessment and approval of the deferment, suspension, a leave from studies, or cancellation of enrolment, when instigated by either student or the University and subsequent reporting requirements via PRISMS.

Scope

This Procedure applies to all **international students** holding a **Student Visa** as a **student** of Federation **University**. This is irrespective of teaching location or if the course or unit is delivered via a Partner Provider.

- Students should check with Immigration before applying for leave of studies. In most cases students will be required to go back to their home country while on leave from studies.
- Students leave will be assessed per semester. Leave approved especially for more than one semester may not be recognised by Immigration and it may act to cancel the student's visa.

Short term leave from studies

Short term leave from studies is leave that will normally not affect the length of a student's visa.

Returning students who wish to enrol or commence classes after the last date allowed for the semester, must apply for leave from studies and have the leave approved prior to commencement of the semester unless circumstances, out of the control of the student, prevent this from occurring. Student Administration at the Partner Provider teaching locations will inform students of the last date to enrol for the semester.

Students who wish to take leave from studies during a semester eg. leave to return to home country for two weeks, must apply for leave from studies prior to taking leave unless circumstances out of the control of the student prevents this from occurring.

When assessing a Short Term Leave From Studies application School/PP must consider the number of classes the student will miss during the leave from studies period and how it will affect the student's results at the end of the semester. If it is assessed that a student will require Special Consideration as a consequence of the approved Leave from Studies request, a Special Consideration form should be lodged at the same time as the Leave from Studies request.

Assessment of a Short Term Leave From Studies application is assessed under the compassionate or compelling definition. It is not necessary for Student HQ to make changes in My Student Centre unless advised at a later date by International Student Compliance/PP/School that the student did not return to study in current semester. Copy

of approved form or letter must be held in student's file. If applicable International Student Compliance will record leave on CoE via PRISMS.
